RELEVANT EXPERIENCE

Data Scientist — Kumulus

MAR 2022 - OCT 2022

Data Cleaning | Feature Engineering | Data integration with SQL and Power BI

Front-End Developer — Kumulus

OCT 2020 - MAR 2022

Front-end: ReactJS, NextJS, VueJS, Angular | Back-end: NodeJS, AWS Lambda

Bug fixes | Micro-frontend | CI/CD | Jest testing | Internal libraries documentation | Design planning | Sprint planning alongside project managers | PR Reviews | Version control | Figma | AdobeXD

Development Intern — Kumulus

NOV 2019 - SEP 2020

Development and Automation with Python, API consumption and Git flow

Concepts of Git, NodeJS and Kubernetes orchestration

EDUCATION

Universidade São Francisco, SP — *Computer Engineering Bachelor Degree*

JAN 2019 - DEC 2023

ATC English Schools Ireland, Bray — *General English course*

NOV 2016 - JAN 2017

English level C1 (Advanced) acquired through an exchange program experience

SKILLS

Programming Languages

JavaScript (ES6), TypeScript, HTML, CSS/Sass, GraphQL, Python, Java

Libraries & Frameworks

React, Next, Vue, Node.js, Express, GraphQL

Cloud Providers

Azure, GCloud, AWS

CERTIFICATES

Google Cloud Associate Cloud Engineer

SET. 2021

Set a cloud solution environment, plan, configure, deploy, implement and ensure successful operation of a cloud solution and configure access and security;

Microsoft AZ-900

APR. 2021

Set Foundational level knowledge of Microsoft Azure cloud services;

Microsoft AI-900

FEB. 2021

Machine learning (ML) and artificial intelligence (AI) concepts and related Microsoft Azure services;

Scrum Foundation Professional Certificate (SFPC)

OUT. 2020

Agile methodology, Scrum process and concepts;

PROJECTS

My first portfolio – [Check it out]

2023

Next.js | Styled Components | React Parallax | Figma

This is my virtual Business card. I plan to improve it regularly for cleaner code and visuals.

Wikipedia Redesign – [Check it out]

2022

Vue | Styled Components | MediaWiki API

This is a redesign of the famous Wikipedia encyclopedia. I used this website to communicate and exhibit data from the MediaWiki API. I'm not this design's creator, just used it as a reference for this project.

Browser Extension – [Check it out]

2022

React | Vue | Chrome Extension API

This project is a browser extension experiment built with Vue. It allows it's users to customize their Whatsapp Web chat background with different images and animations
